# Monitor-Pro Link

Monitor-Pro Link is compatible with the world's most popular email client for business use, Microsoft Outlook.

## **Email your data direct to Monitor-Pro**

Managing and sorting significant volumes of monitoring data, chain of custody letters and lab certificates can be very time consuming and costly.

Let Monitor-Pro Link manage this and seamlessly import data and information from its source directly into your Monitor-Pro database.

Monitor-Pro Link is an Outlook Add-In, and has a flexible rule-based system to filter and send different data files (and other attachments such as lab reports) to the correct importers.

Monitor-Pro Link is a part of the Enterprise suite of applications.
